

Guide for

Web Parcel 2.0 registered users

A new online shipping solution
to suit all your shipping needs

This quick user reference guide will help you find your way around **the new Web Parcel 2.0 shipping solution**. Web Parcel 2.0 is the successor of Web Parcel which is still built on the backbone of Packlink.

This new platform offers the following benefits – exclusively to registered users::

- **Post-paid payment option:** You can now request to receive an invoice every 2 weeks after completing the approval procedure via your [account settings](#)
- **Multiple parcel shipment in 1 order:** You can combine multiple orders of different dimensions and destined for different countries in 1 single payment transaction via your order overview
- **Orders overview:** You will have a clear overview of all your orders on the homepage
- **Live chat with a customer care agent**
- **Onboarding for professional shippers:** You will be contacted by a sales agent who will guide you through the onboarding of the new tool

High volume shippers – more than 50 parcels a month

Do you ship more than 50 parcels each month? You can contact DPD directly for a personalized offer by filling out our [online form!](#)

Contact information for registered shippers:

For technical issues or questions, please go to our helpdesk and select the specific topic you need help with. You can also use the live chat which is available on the homepage once registered; a live agent will assist you at their earliest possible convenience. Please note that these contact options are only available when you are using Web Parcel 2.0.

Please find the steps to start

your shipping journey with DPD BE below

2 After your account has been created, you will be redirected to the brand-new homepage.

The screenshot shows the DPD user dashboard. On the left, there is a navigation menu with categories: All (1), Pending, Ready for payment, Drafts, Generating labels, Ready for shipping, In transit, Delivered, and Archived. At the bottom left is a 'Chat' button (6). The main area displays a table of shipments with columns: Recipient, Contents, Service, Other benefits, Status, and Action. Three shipments are listed, each with a 'Label' button (5) and a 'See details' link. At the top right, there are buttons for 'New shipment' (2), 'Connect your store' (3), and 'Settings / Help' (4). A search bar is located at the top left.

- 1 Keep track of all your parcels
- 2 Start your new shipment
- 3 Customise your account
- 4 Take a look at our FAQ page
- 5 Pay and print your label(s)**
- 6 Chat live with one of our agents!

3 Start your shipment order by entering your shipment details.

The screenshot shows the '1. Shipment details' step of the DPD shipment creation process. It is divided into four sections: 1. Shipment details, 2. Service selection, 3. Address details, and 4. Payment details. The 'FROM' section includes fields for 'COUNTRY' and 'CITY OR POST CODE' (3000 - Leuven). The 'TO' section includes fields for 'COUNTRY' and 'CITY OR POST CODE'. The 'PARCELS' section includes a 'PARCEL' type (Personalized parcel), 'WEIGHT (KG)', and dimensions: 'LENGTH (CM)', 'WIDTH (CM)', and 'HEIGHT (CM)'. There is a 'More parcels' button and a warning box about under-declaring. A 'Get rates' button is at the bottom right.

From – Fill in zip code/city from where you will ship. Prepare and save frequently used addresses in your account.

To – Select country and zip code/city of destination.

Parcels – Fill in the dimensions and weight of your parcels. Prepare and save frequently used parcel sizes in your account.

Multiple parcel shipments (multiple parcels of different sizes in one shipment order) are one of the benefits of being a registered user!

4 Select your service of choice and enter the address details.

1. Verzenddetails 2. Selecteer dienst 3. Gegevens van het adres 4. Detailgegevens
