

Surcharges

Rates 2023

Surcharges	Rates	Explanation
Energy surcharge	per month, variable	DPD calculates a variable energy surcharge on the parcel price for all services and products. This price is indexed, which means that we constantly adjust it according to the fluctuating energy prices. At dpd.nl/fuel you can find an up to date overview.
Digital invoice	per month, free	DPD recognises its responsibility to minimise its environmental impact, and therefore issues invoices free of charge as .pdf and .csv digital files.
Tire surcharge	per tire € 2.95	Tires cannot be processed on the automatic sorting belt and need to be processed manually. A surcharge is applied for tires. In addition, as of 2018 a peak surcharge will apply from March to May and from 24 September to 24 December.
NSP (Non Standard Parcel)		<p>A parcel is considered a Non Standard Parcel if it meets one of the underneath criteria.</p> <ul style="list-style-type: none"> • A parcel has a length or is measured diagonally longer than 130 cm; • The parcel is heavier than 20 kilograms; • The parcel has an unstable, irregular shape (sphere, cylinder, roll); • The parcel is not, or is not properly packaged, according to the packaging guidelines (see dpd.com/nl/en/support/packing/); • The label on the parcel is missing or is difficult to read; • A parcel that, for whatever reason, requires additional manual handling or sortation. <p>If a parcel is larger than 175 cm, heavier than 31.5 kg or has a dimension over 300 cm, only the surcharge for excess on dimensions and weight will be applied.</p> <p>As per April 1, 2021 DPD has 3 categories. Classification per category depends on the number of NPS parcels up to the total number of parcels.</p> <p>The rate applies to all NSP parcels that you send with DPD.</p>
	per parcel € 1.50	Category A: The % NSP parcels is < 10% of the total.
