

## Secure reusable packaging

Redbox packaging not only guarantees the best possible protection for deliveries in Switzerland, but also protects the environment. Redboxes have ergonomic handles for easy handling, are made of impact-resistant and water-proof plastic. Strap seals for security during transportation are compulsory.

### Facts

- Little warehousing space required for empty containers, easy to cope with seasonal fluctuations in demand
- No folding of boxes, no gluing, no tying up with plastic tape
- Additional protection for the contents thanks to the use of inner bags
- Strap seals for security during transportation
- No expense incurred by you or your customer for disposal of packaging materials

#### Filling

If filling material is used, the goods and the filling material must be packed in an inner bag. The inner bags are available in 2 different sizes.

#### Sealing

One type of seal for all 4 box sizes. On the R1, the seal is attached to the lid and on the R2/R3/R4 at the side. Sealing the Redbox is compulsory.

#### Shipping label

The Redbox comes with a protective film. The shipping labels (parcel label, Service Label, etc.) should be applied to the film. This means that all the labels can be removed after delivery, with no residue.

## The essentials

#### Ordering & delivery

Your first order can take up to 8 weeks to deliver and subsequent orders take up to 4 days.

#### Round trip payment

Single-use hire for one round trip; max. duration of round trip 28 days. The first day of the round trip is the day on which we dispatch the Redbox and the last day is the day on which the Redbox is returned to the DPD Network.

#### Lost or damaged boxes

If a box is damaged or lost and/or the round trip lasts for more than 28 days, the cost of the Redbox will be charged to the customer. The box is also regarded as damaged if it is excessively dirty.

Apply shipping labels here

#### Delivery

The DPD driver empties the Redbox on delivery to the recipient and takes it away with him immediately. Shipping goods in Redboxes renders authorisations for delivery to a safe place invalid.

#### Re-collection

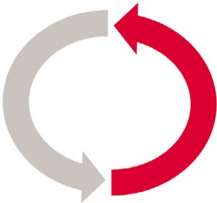

To reduce storage space, re-collection (unused Redboxes are reclaimed by DPD) can be arranged.

# Return trip

Redboxes are provided for single use trips (one return trip). The Redbox has an identification code and is scanned at all key points. This means that the Redbox can be tracked online at all times.

### Customer

- 1. Orders Redbox
- 2. Receives Redbox
- 3. Fills and seals Redbox

### DPD

- 4. Collects Redbox
- 5. Delivers to the recipient
- 6. Takes back the Redbox
- 7. Cleans Redbox ready for reuse

The Redbox is available in 4 different sizes

Redbox	R1	R2	R3	R4
External dimensions, top	300x200x182 mm	410x300x239 mm	608x400x239 mm	608x400x339 mm
