August 2023

CODE OF CONDUCT			
Document number:	Effective Date:	Version:	
HUR0604	August 2023	7	

1. Introduction

Ethics is a key element of DPD Laser’s sustainable strategy and is fully part of our DNA.

At DPD Laser, we firmly believe that respecting people and the environment, conducting our business with integrity, and protecting our resources are paramount to our successful short- and long-term sustainable business development.

It is of the utmost importance to us to continue operating ethically to reach our international growth objectives and become a leader in sustainable delivery and e-services.

To reach these objectives, there was a need to reinforce our Code of Conduct in line with the update of our Governance rules.

The previous version of the Code of Conduct was issued back early in 2023. The new DPD Laser Code of Conduct is updated to reflect best market practices and international standards.

This new DPD Laser Code of Conduct applies to all employees of DPD Laser. In practical terms, it provides all our employees with the tools to help identify the right and wrong things to do.

2. Why introduce a code of ethics and business conduct?

Ethical practice is a set of behaviours that form part of the trust that we as a company have with our employees, partners, customers and other stakeholders. It is also about ensuring that DPD Laser fully complies with all applicable laws and regulations.

Ethical practice is about ensuring that regardless of where and how people interact with DPD Laser, they will be treated in the same professional way which is consistent with our values. Anything less than this would impact our reputation and damage our ability to do business and serve our customers.

The purpose of this code of ethics and business conduct is therefore to help all DPD Laser employees to live our values and act responsibly, ethically and in the best interests of all key stakeholders.

Each operating branch is responsible for managing ethical practice within their businesses on a day to day basis.

3. Our Code of Conduct

3.1 What defines us at DPD Laser?

Compliance with laws and regulations

We respect and comply with all applicable laws and regulations. We expect the same commitment from our Business Partners. In addition to complying with the various ethical standards set out in this Code of Conduct, we are committed to complying with all the regulations that apply to our business, such as transport rules or customs requirements, which may affect the products we deliver. We comply with the highest level of applicable standards in relation to all these areas. When there is a conflict between applicable standards, we apply the strictest standard, unless it is considered illegal under local law.

Serving our customers

We offer proven methods and excellent responsiveness to support the development of our customers. Close working relationships developed by our teams allow for greater flexibility and responsiveness, which are essential to the satisfaction of our customers.

Respect for human rights

Every human being has general, inalienable and indivisible rights, without distinction of any kind, regardless of location, gender, religion, nationality, ethnic origin, or any other status. At DPD Laser we actively work to respect the 10 principles of the Global Compact relating to human rights, international labour standards, and the environment and combating corruption. We also apply, under all circumstances, the international labour and human rights principles as defined by the International Bill of Human Rights, the OECD Guidelines, the International Labour Organisation Conventions, the United Nations Guiding Principles and the United Nations’ Sustainable Development Goals.

Working together

CODE OF CONDUCT			
Document number:	Effective Date:	Version:	
HUR0604	August 2023	7	

When our Employees succeed in bridging borders around the world, it is because they are open-minded and work without barriers. At DPD Laser, we value teamwork and encourage it by all appropriate means. As such, all the principles outlined in this Code of Conduct should govern relationships between our team members just as they should guide how we conduct business. We expect our Employees and Business Partners to treat each other with the respect and consideration they deserve.

HUR0604	August 2023	7	

Anyone confronted with a situation that raises an ethical dilemma shall use their best judgment if they cannot find the answer in this Code of Conduct. This involves asking the following questions:

- Does the action or decision I am about to take comply with the law?
- Does the action or decision I am about to take comply with DPD Laser policies and procedures?
- Could the action or decision I am about to take have a negative impact on DPD Laser?
- Would I place myself or DPD Laser in an uncomfortable position if the action or decision I am about to take were to be revealed internally or in the media?
- Would the action or decision I am about to take place me in a position where I owe something to a DPD Laser Business Partner?

Ask for advice

If you still have questions, ask the right people for advice:

- your Manager
- your Ethics Officer
- your Human Resources Department
- your Compliance Department

4.3 What are the controls to ensure the implementation of and compliance with the Code of Conduct?

Ethics Officer and the Audit, Internal Control, Risk Management, Security and Quality Department of DPD Laser/DPD Group reserve the right to check on the implementation of and compliance with the Code of Conduct, particularly during audits.

5. Respect of People and the Environment

5.1 Promote human rights

Human rights are universal, indisputable, indivisible and in dissociable rights that all human beings enjoy, without distinction of any kind, wherever they are, including gender, religion, nationality, culture, ethnic origin, or any other status.

These rights include, but are not limited to, respect for international standards for migrant workers, respect for fair, safe and satisfactory working conditions, combating forced labour including slavery, child labour or similar, equal opportunity and non-discrimination, and respect for international labour standards.

All employees shall respect human rights even when public authorities are unable to provide these protections. This means working proactively to ensure that the organisation does not contribute, directly or indirectly, to the non-respect of rights, striving to prevent and mitigate risks, promoting human rights, exercising their duty of vigilance and remedying any violations.

5.2 What is DPD Laser doing in this area?

At DPD Laser, we protect the human rights of everyone working in our value chain and transport network, in particular by prohibiting, for ourselves and our Business Partners, any form of illegal labour.

To this end, the duty of care compliance program applicable within DPD Laser sets out measures to continuously:

- identify the adverse impacts arising from its activities and its supply chain;
- prevent and mitigate such impacts;
- monitor and assess the controls in place.

5.3 Ensure health and safety at work

Our activities, whether office, transportation or delivery, can have an impact on the health and safety at work. To ensure a good level of physical, psychological and social well-being for Employees, teams shall take appropriate measures and implement them effectively. It is about preventing the risks relating to their activity and their negative effects on health, such as, for example, musculoskeletal disorders (MSD), psychosocial risks (PSR), fire risks or road accidents.

It is also about monitoring the consequences of the diversification of work methods, in particular through the risks associated with hyper-connection and over-solicitation of Employees which are generated by the multiplication of digital tools in companies (laptops, smartphones, e-mails, internal messaging systems, etc.), and the development of remote working.

An active approach allows us to provide a safe and peaceful working environment to attract the best talent and partners, to reduce work-related accidents, combat absenteeism, increase the overall performance of our organisation and preserve the health and physical integrity of our Employees. It is everyone's responsibility to respect the rules and recommendations implemented in this regard.

DPD Laser conducts its activities undertaking all preventive necessary steps to ensure the safety and protect the health of its work environment, including by complying with all applicable laws and regulations, by creating a work environment and providing work tools that meet the current standards, by being attentive or by training and informing on health and safety measures. DPD Laser also attaches the utmost importance to maintaining a work/life balance for its Employees. When it comes to health and safety at work, we all have a role to play, for ourselves and our colleagues.

This allows us to meet the challenges of today and tomorrow more effectively, to create a unifying environment and to better serve our customers. 5.7 Act to protect the environment

Respecting and protecting the environment is crucial for the survival and prosperity of current and future generations because we are dependent on our ecosystem and the resources of our planet. The same is true for our activities, which can only develop sustainably if we consider on a daily basis our impact on the environment. As we all share the same address, we all have a responsibility to respect and protect our planet and work together to address the multiple environmental challenges such as combating air pollution, climate change, destruction of biodiversity, etc. We all have a role to play.

DPD Laser sustainable development policy is an integral part of our corporate strategy and our annual action plans. It aims to reduce our environmental footprint in terms of greenhouse gas emissions, local air pollutants, resource conservation and promotion of a circular economy. Each of these actions is managed by a dedicated team at Central level and supported by a strong commitment from our teams, all of whom are made aware of environmental issues.

Our program focuses on three priorities where we believe we can make the most difference in terms of delivery and beyond:

- Measuring, reducing, and offsetting our carbon footprint;
- Support the circular economy, for example, by developing recycling initiatives and,
- Helping and supporting associations, to strengthen our roots in our local communities.

6. Integrity of Market and Business Activities

6.1 Prevent and combat corruption and influence peddling

Corruption consists mainly of a person (public or private), who, in the performance of their duties accepts, solicits, or receives (passive corruption); or promises, offers or gives (active corruption):

- An undue advantage (which can take different forms: money, services, property, travel, entertainment, advancement, hospitality, awards, agreements, contracts, titles, administrative approvals, privileges, kickbacks, etc.),
- for themselves or for others, or in favour of DPD Laser,
- in exchange for a favourable decision, action or abstention,
- is in breach of their legal, contractual or professional obligations.

Intent is decisive in establishing the offence of corruption. This is why attempted corruption is a crime, even if the proposal is not followed up by any action or if no one benefits from it.

- The bribe-giver is the person who seeks to corrupt
- The bribe-taker is the person who solicits or accepts an undue advantage

Influence peddling is an offence which consists of a person (public or private) who accepts, solicits or receives (passive influence peddling) or promises, offers or gives (active influence peddling):

- An undue advantage (which can take different forms: money, services, property, travel, entertainment, advancement, hospitality, awards, agreements, contracts, titles, administrative approvals, privileges, kickbacks, etc.),
 - so that this person misuses their real or assumed influence to obtain, a favourable decision from a public authority or administration (awards, procurement contracts, employment, favourable decisions, etc.).

Like corruption, influence peddling is prohibited and reprehensible. These practices are illegal and punishable by heavy criminal sentences applicable to both the bribe-giver and the bribe-taker.

At DPD Laser, we comply with anti-corruption laws and oppose all forms of corruption by applying

CODE OF CONDUCT			
Document number:	Effective Date:	Version:	
HUR0604	August 2023	7	

three key principles:

- “Zero Tolerance”
- “Applies to Everyone”
- “Everyone is Vigilant”

DPD Laser strives to prevent and detect risk in this area by providing a framework for the conduct of its Employees, by training them to detect irregularities and manage any difficulties, and by giving them the tools to implement, where appropriate, any corrective measures necessary.

Examples of the wrong things to do 

- Accept or solicit money or anything of value (gifts, hospitality, etc.) aimed to give an undue advantage
- Offer, promise or give money or anything else of value (gifts, hospitality, etc.) to seek to obtain an undue advantage

Examples of the right things to do 

- Bear in mind that corruption can take different forms: public/private; benefits in kind/money, etc.
- Ask for advice from your Manager or Ethics Officer whenever you are in doubt or have any questions

6.2 Prohibit facilitation payments

Facilitation payments are unofficial payments of small amounts intended to facilitate or fast-track the smooth running of simple procedures or administrative activities that the person paying is nonetheless entitled to expect. They are considered a form of corruption.

DPD Laser prohibits all facilitation payments, even in situations where local laws do not prohibit such payments. If an Employee’s physical safety or integrity is threatened by a serious and imminent danger, DPD Laser may, as an absolute exception, tolerate such payments. In such situations, the Manager and/or Ethics Officer of the concerned department shall be notified as soon as possible and any payments made shall be properly identified and recorded in the relevant accounting documents and records.

CODE OF CONDUCT

Document number:	Effective Date:	Version:
HUR0604	August 2023	7

Examples of the wrong things to do

- Accept a facilitation payment unless your safety or physical integrity is threatened
- Try hiding a facilitation payment

Examples of the right things to do

- Before making a payment on behalf of DPD Laser, always be mindful of the reasons for the payment and check that the amount requested is in line with the products and services provided
- Always ask for a receipt stating the reason for payment
- Refuse and immediately inform your Manager and/or Ethics Officer in the event of a request for a facilitation payment

6.3 Supervise giving and receiving Gifts and Hospitality

A normal course of business sometimes requires to offer or receive Gifts and/or Hospitality. Depending on the value they represent, the circumstances in which they are offered or received, the identity of the people offering and/or receiving them, Gifts and Hospitality may be admitted. However, they should lead the recipient and/or giver to examine whether they are acceptable.

DPD Laser has defined a specific Gifts and Hospitality policy with rules on offering and receiving Gifts and Hospitality so that they can be offered or accepted in a way that is appropriate, legitimate, transparent, and which would not present any risks of participating in the commission of an offence.

Examples of the wrong things to do

- Accept or offer Gifts in cash or cash equivalent (gift vouchers, loans, etc.)
- Accept or offer Gifts or Hospitality during the course of a bidding process

Examples of the right things to do

- Ensure that Gifts and Hospitality offered/received are permitted under current regulations
- Respect the reporting, validation and registration thresholds of DPD Laser

6.4 Manage relationships with Business Partners

Within the framework of its business relationships, DPD Laser may be in contact with various Business Partners, including Intermediaries.

An Intermediary is an individual or legal entity acting for and/or on behalf of DPD Laser (e.g. consultant, individual or legal entity involved in a commercial negotiation in order to enable or facilitate the conclusion of one or more contracts).

In certain circumstances, DPD Laser could be held liable for corrupt acts committed by its Business

CODE OF CONDUCT			
Document number:	Effective Date:	Version:	
HUR0604	August 2023	7	

Partner. It is therefore necessary to supervise relationships with Business Partners to avoid this type of risk.

The use of Business Partners requires undertaking strict precautions and conducting prior comprehensive analysis to ensure reputation and integrity of Business Partners. DPD Laser is committed to assessing its Business Partners both upstream and during the business relationship.

Examples of the wrong things to do 

- Consider that participation of an Intermediary in a corruption scheme will necessarily exonerate us

Examples of the right things to do 

- Carry out the necessary anti-corruption due diligence on the Business Partner before and during the business relationship
- Ask your Manager and/or Ethics Officer for advice if you have any doubts or questions
- Formalise the business relationship with the Intermediary through a contract with appropriate anti-corruption clauses
- Ensure that the remuneration of Intermediary is reasonable and commensurate with the services provided

6.5 Prevent and manage conflicts of interest

A conflict of interest is a situation in which the private interest of a person is likely to affect, or be perceived as affecting, the independent, impartial, and objective performance of their professional duties.

Conflict of interest situations can take many forms:

- Result from a situation that affects us directly or indirectly, through our family, friends or close acquaintances;
- Be financial (such as shareholdings in another company), material, emotional, political, or charitable;
- Occur in the context of various employment duties such as selecting suppliers, recruiting employees, negotiating prices with a customer, setting up sponsorship, etc.

Some illustrations of situations in which there is a conflict of interest:

- Owning an interest in a company that may be a competitor, customer or supplier of DPD Laser;
- Having a personal or familial relationship with someone who is applying for a job at DPD Laser;

CODE OF CONDUCT

- Supervising, assessing or managing the performance of an Employee who is a relative or has a close personal relationship with you;
- Having a personal relationship with a person who works for a company that may be a competitor, customer or supplier of DPD Laser.

Because conflicts of interest can affect the ability to make objective and unbiased decisions in the best interests of DPD Laser and sometimes conceal improper practices, DPD Laser has implemented a conflict of interest prevention and management policy which states, in particular, that:

- All Employees shall be made aware of the concept of conflict of interest and the applicable rules in this area;
- All Employees shall declare any real or potential conflict of interest situation to their Manager as soon as it occurs;
- Certain identified persons, including at the very least, a sample of decision-makers, shall confirm at least once a year that they are not involved in a conflict of interest situation;
- All declarations of conflict of interest shall be assessed by the Manager of the Employee and, the Ethics Officer;
- Any actual conflict of interest shall lead to the implementation of remedial measures aimed at addressing or neutralising such conflict.

Examples of the wrong things to do 

- Select, or help to select, for a contract, a supplier in which you or one of your relatives have an interest
- Use confidential information for your own benefit or a relative's benefit
- Influence the hiring, performance assessment, or determination of the salary of a relative
- Conceal information about real or potential conflicts of interest

Examples of the right things to do 

- Avoid activities, investments or close relationships with organisations whose interests might interfere with those of DPD Laser and, at the very least, inform your Manager
- Inform your Manager in the event of potential or actual conflicts of interest
- Share any concerns about whether a personal interest may interfere with DPD Laser's interests

6.6 Establish responsible relationships with Business Partners

Our delivery and services partners allow us to respond in an agile manner to the need of our customer while creating local employment. They are therefore a key factor in our value chain and transport network. That is why we need to work with Business Partners who share the same professional and ethical standards throughout our value chain.

This means including an ethical, social and environmental dimension in our choice of Business Partners and associating them with a common approach to ensure and enhance respect for human rights, health and safety, and the environment.

DPD Laser implements third-party due diligence procedures to assess, in particular, the integrity of Business Partners considered for a business relationship, the risks such relationship may present

CODE OF CONDUCT			
Document number:	Effective Date:	Version:	
HUR0604	August 2023	7	

and ways of remedying them.

DPD Laser also expects its Business Partners to ensure that their own business partners meet the same ethical standards.

<p>Examples of the wrong things to do </p>	<p>Examples of the right things to do </p>
<ul style="list-style-type: none"> • Turn a blind eye to red flags that would call into question the integrity of a third party with whom we have or are planning to have a business relationship 	<ul style="list-style-type: none"> • Integrate ethical, social and environmental criteria when selecting Business Partners • Treat Business Partners responsibly • Diversify supplier portfolio to avoid creating a situation of economic dependency • Regularly and throughout the business relationship with our Business Partners, ensure the quality of this relationship and its economic and social balance

6.7 Manage donation and sponsorship initiatives

Commitment to civil society consists of investing in the support of causes, associations, projects or events by making human, material or financial resources available. When this commitment is made on a philanthropic basis, with no expectation of a return, it is called a donation. When contribution of DPD Laser enables promotion of the DPD brand in connection with the project or event supported, it is called sponsorship.

At DPD Laser, we want to make a positive contribution to civil society by mobilising our own strengths and skills for the benefit of others, to this end, DPD Laser:

- Carries out solidarity delivery operations;
- Provides human resources through the donation of working skills;
- Participates in charity and sporting events for the benefit of associations it supports;
- Organises solidarity collections.

The aim of DPD Laser is to allow its Employees to get involved in the actions that are important to us. By contributing to maintaining links between people, we make a difference.

Economic stakeholders' participation in political life mainly consists in sharing their experience and expertise in business sectors concerning them, which is also known as lobbying or representation of interests. This can be carried out directly or through professional organisations. These practices are increasingly regulated and require more and more transparency.

As a responsible company, DPD Laser uses its best judgment and probity when meeting with public officials to explain its position on a particular issue. DPD Laser always complies with applicable regulations. Accordingly, DPD Laser will never attempt to exert improper influence over a public official or lawmaker to obtain a decision in the interest of DPD Laser.

Competition law aims to preserve free competition and innovation by prohibiting certain practices such as cartels (for example, market sharing or price fixing), and abuses of dominant position when the purpose of these practices or their effect is to distort competition on markets. Competition law also regulates the commercial relations of the company with its partners.

In addition to ultimately harming consumers, violations of competition law can result in substantial fines, including up to 10% of the worldwide sales of the group to which the sanctioned company belongs.

DPD Laser conducts its activities in the strictest compliance with anti-competitive practices regulations and implements policies and procedures to cover this requirement.

The aim is to give these funds a proper and legal appearance, which involves concealing their origins and their owner. Illegally acquired money can be the result of arms, drugs or human trafficking or other illegal activities.

The following criteria should make you wonder about potential money laundering:

- Requests for payment in cash
- Unusual payment terms
- Splitting payment into multiple transactions
- Transactions involving cash flows towards or from countries or territories known to be tax havens
- Transfers of funds to or for third parties unrelated to the transactions at stake
- Reluctance by the third party to provide the information requested
- Use of multiple foreign bank accounts for no apparent reasons

DPD Laser implements policies to reasonably know who we are working with and identify risky transactions. This allows us to avoid being used as a vehicle for money laundering.

At DPD Laser, we apply all applicable laws and international accounting standards. In addition, we have implemented a system of internal controls to prevent and identify frauds.
